Innovation

At International Group of Anthony, our mission is to offer innovative solutions for anything you can imagine. Take our web hosting services for example, it comes with innovative Domain and Email Managers. With a mouse click, you will be able to upload a file, to register a domain or to create a new mailbox. It's that easy!

"

We provide services for everything to assist customers in a cost effective way

International Group of Anthony

TECHNOLOGY

Good customer service experience can change the entire perception of a customer

The Company

The International Group of Anthony is an invention company that creates beneficial invention and innovation to the world. If you can dream it, we can make it.
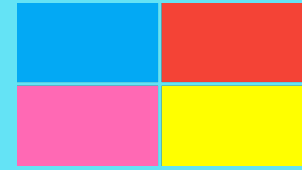

Our Services

We are primarily developers who made websites, online stores, applications, games, built servers and anything that you can imagine. Learn more on HAILIGA.ORG/DEPARTMENTS

Our Products

Besides offering tech services, we also provide top-notch products and customised engineering solutions. We have our suppliers to offer general products, and we also build some of the products by ourself. Check out these products at SHOP.HAILIGA.ORG
